

RONDA® ENVIRO-VAC

HV03 Vacuum Cleaner

Enviro-Vac H type vacuum cleaners are designed to meet all the needs and requirements for dealing with hazardous materials.

The vacuum cleaner will form a valuable part of any system designed to control hazardous and health-endangering dust in the environment.

They feature a 3-stage filtration system, ensuring safe and easy decontamination as well as giving the HEPA filters an extended life.

The vacuum cleaners have locking clips to avoid accidental opening and spread of contaminated material during transit or use.

They come with a low flow warning indicator. This indicates if there is a blockage or a bag change is required.

Voltage: 110V Product Code: N92

Voltage: 240V Product Code: N200

The vacuum cleaners conform to the standard – **EN60335-2-69:2012.**

TECHNICAL DATA

Motor:	Single
110 Volt	10 Amp
240 Volt	6 Amps
Motor Power:	1000W
Air Flow:	170 m ³ /h
Suction power:	2794 mmH ₂ O
Noise level:	<83 dB
Collection capacity:	3 Litres
Filtration Class:	H14
Dimensions:	300mm x 210mm x 380mm
Weight:	6kg
Material:	Polypropylene

- High efficiency 1000W motor
- 110V or 240V options.
- 3-stage filtration system
- H14 HEPA filtration standard to 99.995%
- Low flow warning indicator
- Locking Clips
- Manufactured from tough polypropylene plastic
- Supplied with 32mm toolkit and 10 spare paper bags
